Questions from Syllabus?

Intro to graph Theory and Euler Circuits and Paths

Graph - A picture that contains a set of **vertices** and a set of **edges**.

Example 1. Consider the graph below. Give the set of vertices and the set of edges:

$$V = \{A, B, C, D, E\}$$

$$E = \{AB, BC, CD, AD, DD, DB, DC\}$$

continue Day 2 //

Example 2. Draw two different graphs for $V = \{L, M, N, P\}$ and $E = \{LP, MM, PN, MN, PM\}$
